

What You Will Learn

Our CSAT programme is structured into four comprehensive modules covering all major areas tested in the UPSC Civil Services Aptitude Test. Each module is designed to build concepts from the basics to the examination level through lectures, practice sessions, and regular assessments.

Module 1: Quantitative Aptitude

10 Topics

Build strong mathematical aptitude through concept-based learning and exam-oriented problem solving.

1. Number System
2. Percentages
3. Ratio & Proportion
4. Averages
5. Profit & Loss
6. Simple & Compound Interest
7. Time, Speed & Distance
8. Time & Work
9. Data Interpretation
10. Mensuration (2D & 3D)

Module 2: Logical Reasoning

10 Topics

Develop analytical thinking and logical problem-solving skills essential for the CSAT examination.

1. Analogy
2. Coding–Decoding
3. Direction Sense
4. Blood Relations
5. Seating Arrangement
6. Syllogism
7. Statement & Conclusion
8. Ranking & Ordering
9. Logical Puzzles
10. Clock & Calendar

Module 3: Reading Comprehension

6 Topics

Strengthen comprehension skills to improve accuracy, speed, and interpretation of passages.

1. Reading Speed Techniques
2. Passage Analysis
3. Vocabulary Building
4. Inference-Based Questions
5. Tone & Author's Perspective
6. Comprehensive Practice Sets

Module 4: Data Interpretation & Data Sufficiency

8 Topics

Master interpretation of data and analytical decision-making through diverse question formats.

1. Tables
2. Pie Charts
3. Line Graphs
4. Bar Graphs
5. Mixed Charts
6. Data Sufficiency
7. Caselet-Based Questions
8. Practice Questions & Previous Year Problems

Course Outcome

By the end of this programme, students will be able to:

- Master the complete UPSC CSAT syllabus.
- Solve aptitude and reasoning questions with speed and accuracy.
- Improve reading comprehension and analytical ability.
- Develop effective time-management strategies for the examination.
- Build confidence through extensive practice, PYQs, sectional tests, and full-length mock tests.
